

RAPTOR^{SL}

Rodent Bait Station

Patent US 8,701,337,B2

13.5" x 8.75" x 2.75"
21 oz.

Bait Not Included

The Raptor SL features a unique, magnetized patent pending system that allows you to attach the bait station directly to the underside of dumpsters, food service equipment and even the back of metal doors. The Raptor SL is virtually indestructible with powerful magnetized grip.

- An elevated interior feeding tray keeps your bait dry and more desirable
- Streamlined positioning ensures rodents quick and easy access
- Deters unwanted entry and tampering by children
- Hidden placement from children, pets, and non target animals
- Tamper resistant; instantly locks when closed
- Stealth placement reduces theft and ensures safety

- Attach to Metal Fence Post or any Steel Framing
- Attach to metal dumpster and central air unit.

To open, insert multi tool or screw driver.
Push lock to back of Bait Station and pull up.
