

SCENTED PREDATOR SURVEY DISKS

-Malodorous-

-Not for human use or consumption-

-Corrosive to skin and irritating to nasal passages-

CONTENTS: 110 plaster paris disks impregnated with FATTY ACID SCENT (FAS), a chemical attractant formulated with C-2 to C-8 organic acids.

CAUTION: wear vinyl or latex gloves when handling the jar and tongs when handling the disks, to avoid odor contamination. Do not directly inhale the vapors from the disks.

INSTRUCTIONS: place 1 disk in center of scent station for predator surveys or use 1 disk as an attractant for live-traps, foot-hold traps, snares, or Conibear traps. See enclosed instructions.

MANUFACTURED BY: USDA Pocatello Supply Depot, 238 East Dillon St., Pocatello, ID 83201
